LEARN TO SAVE A LIFE

PURCHASE A DEFIBRILLATOR FROM ST. JOHN AMBULANCE!

Philip HeartStart – OnSite

Fast to learn, east to use and always ready.

- Simple to operate, even a first aider with minimal training can potentially save a life
- Calming natural voice instructions coach the first aider through the steps of first aid defibrillation and CPR
- Comprehensive automatic self-tests check all the HeartStart vital functions on a daily, weekly and monthly schedule
- Affordable and suitable for various sites including office buildings, industrial sites, hotels, fitness centres, sports arenas, dental practices and other health institutions

The St. John AED package includes:

- HeartStart Onsite Defibrillator
- 2 Pairs of Adult SMART Pads
- 1 Lithium Battery
- 1 Slim Carry Case
- 1 Owner's Manual
- 1 Reference Guide
- 1 Fast Response Kit (Scissors, Razor etc)

AED Training:

St. John Ambulance certificate courses can vary depending on the needs of your first aid program:

- Automated External Defibrillator (AED)
- Standard First Aid with AED

Annual AED recertification is recommended.

St. John Ambulance recommends:

- 1 Alarmed Wall Cabinet
- 1 AED Wall Sign
